

DAVID MAYES #47976-074  
P.O. BOX 350  
FEDERAL PRISON CAMP  
BEAVER, WV 25813

TO: THE HONORABLE JUDGE VARLAN

FOR MY RE-ENTRY WILL BE AT THIS ADDRESS WITH  
MY SON: IVEN MAYES, 2126 SEVIERVILLE RD, MARYVILLE  
TN 37804, PHONE NUMBER-865-806-0234

IN THE UNITED STATES DISTRICT COURT  
FOR THE EASTERN DISTRICT OF TENNESSEE

UNITED STATES,  
Plaintiff,

Case No. 3:14-CR-147-TAV-CCS

v.

Reg. No. 47976-074

DAVID L. MAYES,  
Defendant.

MOTION FOR IMMEDIATE COMPASSIONATE RELEASE

NOW HERE COMES David L. Mayes, proceeding pro se, in a Motion for Immediate Compassionate Release pursuant to 3582 (c)(1)(A) for the following "extraordinary and compelling reasons."

In light of the COVID-19 pandemic, Mr. Mayes pre-existing medical condition creates a significant risk of hospitalization, long-term health effects, and death. The BOP does not possess the healthy services to care for Mr. Mayes once COVID-19 sweeps like wildfire through his current housing in an open-quarters, barracks-style, high-density environment, similar to the nursing homes and the U.S.S. Roosevelt with 800 cases.

Mr. Mayes has a documented BOP Medical History of (1) Essential Hypertension, (2) Asthma, (3) Hyperlipidemia, and (4) Peripheral Vascular Disease. His documented BOP Medications are (1) Atorvastatin 10 mg, (2) Cilostazol 50 mg, (3) Albuterol Inhaler, (4) Aspirin 81 mg, (5) Duloxetine 30 mg, (6) Folic Acid 1 mg, (7) HCTZ 25 mg, (8) Lisinopril 5 mg, and (9) Mometasone Furoate Inhalant Powder.

Mr. Mayes has submitted a "Copout" to Warden D.L. Young at FPC-Beckley on 4/29/2020 Requesting Compassionate Release pursuant to 18 U.S.C. Sec. 3582(a)(1)(A) and the FIRST STEP Act, as advised as the Administrative Remedy procedure by FPC-Beckley Staff. Mr. Mayes respectfully requests this Motion be expedited in lieu of "30-days response" in light of the "catastrophic death consequences." [Copout Copy attached]

Mr. Mayes has made an extraordinary commitment to bettering himself in the BOP, as the attach Work and Education Histories detail. [See attached]. Mr. Mayes begs this Honorable Court to be moved to safety in Home Confinement with any applicable sentence modification this Court deems appropriate.

With Great Respect,

Date: 6-15-20

David L. Mayes  
David L. Mayes

Atch:

1. Medical History
2. Programming History
3. Copout to Warden D.L. Young

JUNE 10

U.S. DEPARTMENT OF JUSTICE

FEDERAL BUREAU OF PRISONS

TO: (Name and Title of Staff Member) <i>MR. YOUNG (THE WARDEN)</i>	DATE: <i>3-31-20</i>
FROM: <i>DAVID MAYES</i>	REGISTER NO.: <i>47976-074</i>
WORK ASSIGNMENT: <i>ORD</i>	UNIT: <i>EVERGREEN</i>

SUBJECT: (Briefly state your question or concern and the solution you are requesting. Continue on back, if necessary. Your failure to be specific may result in no action being taken. If necessary, you will be interviewed in order to successfully respond to your request.

On March 27, 2020 President Trump signed the CARES Act into law. Within the legislation BOP authorities have the ability to release individuals to home confinement if they meet the following criteria:

- 1) age and medical vulnerability to COVID-19 virus
- 2) facility security level (camp facilities being the lowest risk)
- 3) conduct in prison
- 4) PATTERN risk assessment
- 5) reentry plan
- 6) crime of conviction

Because I meet most if not all the above listed criteria based upon the CARES Act, I am requesting that I be allowed to serve the remainder of my sentence on home confinement to protect myself from the dangerous COVID-19 virus and more importantly to protect all of society from the spread of this deadly virus.

(Do not write below this line)

- 99213 Office/outpatient visit est ( @10:14 on 03/09/2020 )

- unit(s): 1

- details:

ABI study was performed today. Discussed the results with the patient. Advised patient that his left ABI reading is lower today because his brachial pressure is higher today than it was at last visit (ankle pressure is divided by brachial pressure to obtain ABI). Patient was told to continue with Plavix and Pletal medical therapy. Patient given the opportunity to discuss the treatment plan. Patient verbalized understanding.

Time spent with patient: 25 Minutes

**Assessment**

1. Peripheral Vascular Disease - Unspecified [I73.9] - *established diagnosis, stable*
2. Cramp And Spasm [R25.2] - *established diagnosis, stable*
3. Long Term (current) Use Of Antithrombotics/antiplatelets [Z79.02] - *established diagnosis, stable*
4. Long Term (current) Use Of Anticoagulants [Z79.01] - *established diagnosis, stable*

MRI LUMBAR SPINE WITHOUT IV CONTRAST

Clinical Indication: Lower back and left leg pain.

No previous study for comparison.

TECHNIQUE:

T1 and T2 sequences with and without fat saturation were utilized in acquiring sagittal images with axial images acquired with T1 and T2 weighted technique.

FINDINGS:

The lumbar spine maintains its anatomic lordosis with grade 1 retrolisthesis of L5 on S1.  
The lumbar vertebral bodies are normal in height and no abnormal bone marrow signal characteristics and demonstrated at any level.  
The conus ends at T12-L1 level without evidence of lipoma or tethering.  
Neural foraminal narrowing, moderate to severe on the right and moderate on the left at L2-3 level, moderate on the right and severe on the left at L3-L4 level, mild on the right and moderate on the left at L4-L5 level, and mild to moderate bilaterally at L5-S1 level.  
Discogenic degenerative changes, mild at L3-L4 level and moderate at L4-L5 and L5-S1 levels. Mild diffuse disc bulging at L4-L5 and L5-S1 levels.  
Mild to moderate spinal canal stenosis at L2-L3 level. Mild posterior facet joint degenerative changes, on the left at L3-L4 level and on the right at L4-L5 and L5-S1 levels. The sacroiliac joint is grossly unremarkable bilaterally.  
No evidence of arachnoiditis.  
No significant pre or paravertebral soft tissue abnormality.

IMPRESSION:

1. Grade 1 retrolisthesis of L5 on S1.
2. Neural foraminal narrowing, moderate to severe on the right and moderate on the left at L2-3 level, moderate on the right and severe on the left at L3-L4 level, mild on the right and moderate on the left at L4-L5 level, and mild to moderate bilaterally at L5-S1 level.
3. Discogenic degenerative changes, mild at L3-L4 level and moderate at L4-L5 and L5-S1 levels.
4. Mild to moderate spinal canal stenosis at L2-L3 level.

SPECIAL MAILING PROCEDURES FOR FORWARDING TO  
YOU. THE LETTER HAS BEEN NEITHER OPENED NOR  
INSPECTED. IF THE WRITER RAISES A QUESTION OR  
PROBLEM OVER WHICH THIS FACILITY HAS JURIS-  
DICTION, YOU MAY WISH TO RETURN THE MATERIAL  
FOR FURTHER INFORMATION OR CLARIFICATION. IF  
THE WRITER ENCLOSES COPIES OF OTHER MATERIAL,  
FORWARDING TO ANOTHER FACILITY. IF YOU  
RETURN THE ENCLOSURES TO THE FACILITY.
